# Three ways to separate mixtures

With a large sieve

With a magnet

By evaporation

A teacher mixed different things together. Choose the best way to separate each mixture from the list above. The first one is done for you.

Mixture	**Best way to separate the mixture**
a) Rocks and soil.	With a large sieve.
b) Sugar and water.	
c) Flour and peanuts.	
d) Metal paper clips and plastic paper clips.	
e) Salt and water.	
f) Metal needles and sawdust.
