5). A graph is plotted showing 5 pupils' reports.
Draw this in your book.

Beth is an excellent pupil in all aspects. She works hard and has achieved a great examination result. 2).

John is very gifted in this subject, but puts in very little effort. This must improve next year. 1).

Billy is an excellent pupil who 4). always tries hard. I hope this attitude continues despite his disappointing examination result.

Jane has worked in a satisfactory manner all year. Her score is average for the group. 3).

a). Match each point on the graph to the report ?
b). One report is missing. Write a report for the point that hasn't been used.
c). Which pair put in the same amount of effort ?
d). Which pair scored similar marks in the examination ?
e). Write your own school report and plot it on your graph.
f). Make up your own question. Write a set of reports. Plot a graph showing attitude and exam percentage, then make up some questions. Give it to your neighbour to answer.
