

Pose/ Problem

Think of a question that you would like to investigate

Sentence starter

I wonder whether.....

My aim is to investigate....

Plan

How did you get the data? Detailed explanation, start with the investigative question
. Put the link to the website that you used

Analysis

- Add either two separate Box and whisker plot or a comparative box and whisker plot. This can be hand drawn in your books and then the picture can be added to your doc.
- Add your Data set, Mean, Five point summary etc
- Analyse/ compare the features- Such as which group or gender has higher median, range, lowest and highest value etc, shape of the graph (Skewed to left or right etc). Start the paragraph by talking about the investigative question
- Overall from your investigation what do you understand or infer.

Conclusion

- Start the paragraph with the investigative question
- Brief sentences about where you collected from and what the outcome of the investigation was..
- What type of sampling collection did you use? Random, stratified etc
- Any problems/challenges that you encountered in your investigation
- How would you improve your investigation next time?
