Global Studies

We are EXPLORING... how people communicate

Must task:

Task 1 - Advantages/disadvantages of the Internet (these slides)

Task 2 - Digital disaster worksheet

Success Criteria:

- I can evaluate the impact of changing communication technology over time on people and society
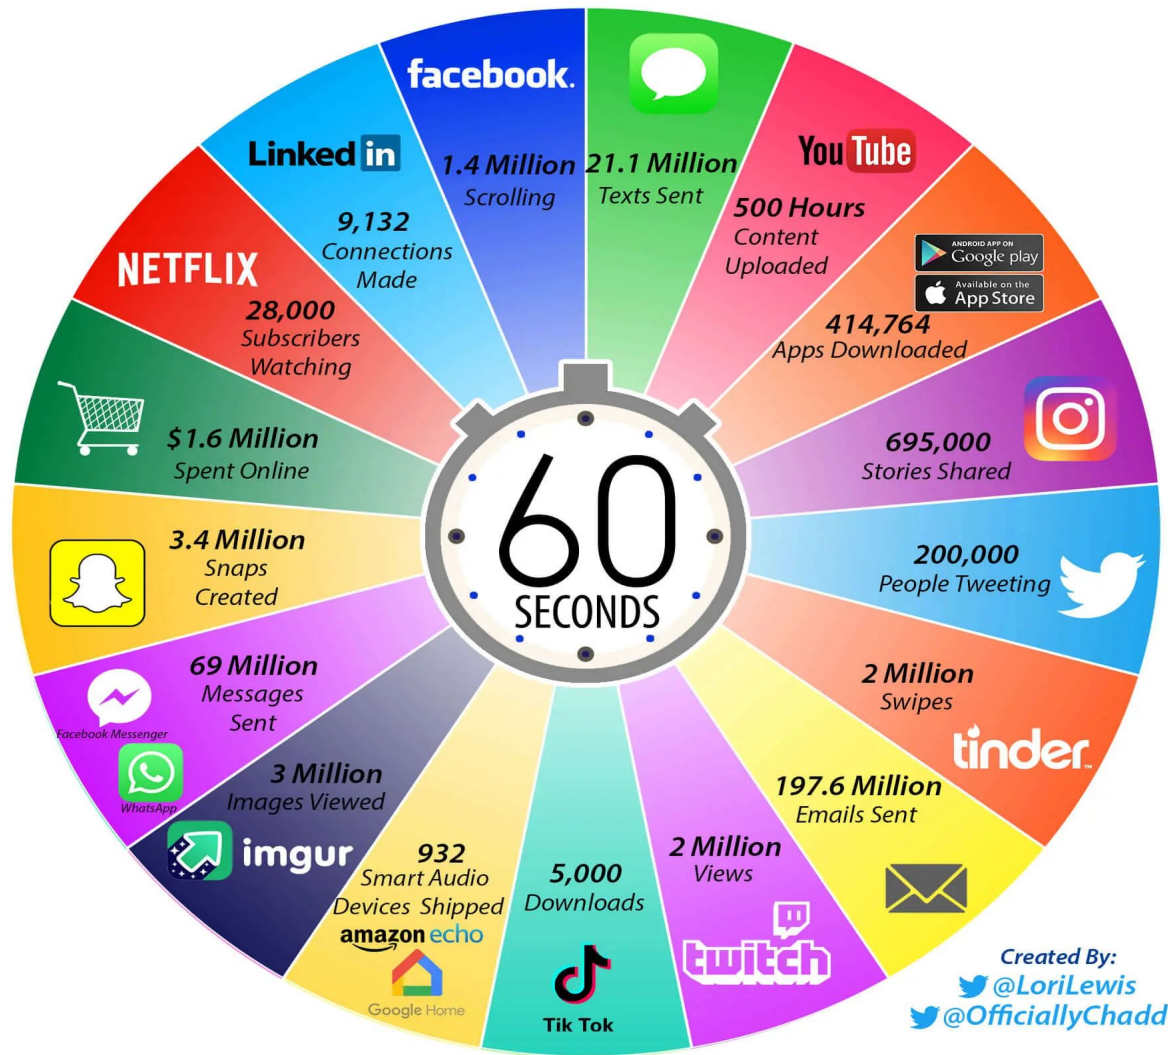

The internet!

Why do we use the internet?

Here are some important reasons

- Find information on anything across the globe
- Communicate and collaborate with others.
- Work or school from home.
- Buy and sell products and services
- Download files
- Get educated and entertained.
- Do group activities.
- Connect people, machines and everything.
