

Write down the quantity as fraction of another and then create a pie chart

1. A survey was conducted to find the most favourite snack of a Year 7 class. The class has 29 students and the survey results are as follows

Oreos	7
Popcorn	12
M&M	6
Fruits	4

Write the fraction for each snack and simplify where possible. Also display this information on a pie graph.

2. John Cena's Easstle results were slumping and so his LA asked him to give a break down of his afternoon routine. Below is the list of how John Cena spends his day.

Snack- 45 minutes
TV time- 2 hours
Homework- 1 hour
Dinner- $\frac{1}{2}$ hr
Gaming- 2 hours

Express each as a fraction (Simplify where possible) and then display on a pie graph.
