

Q1
For each shape below, state the order of rotational symmetry.

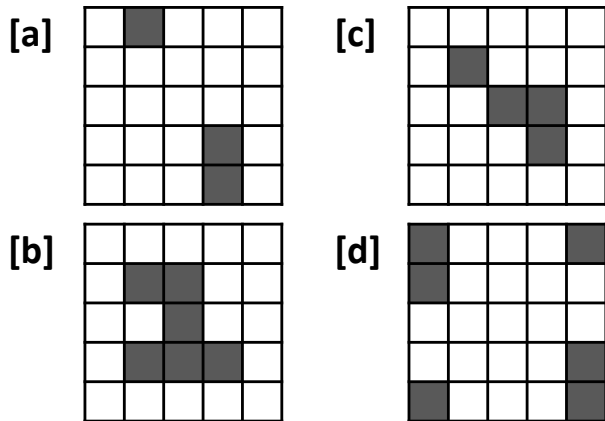

Q2
Circle the letters of the shapes that have more than rotational symmetry order one.

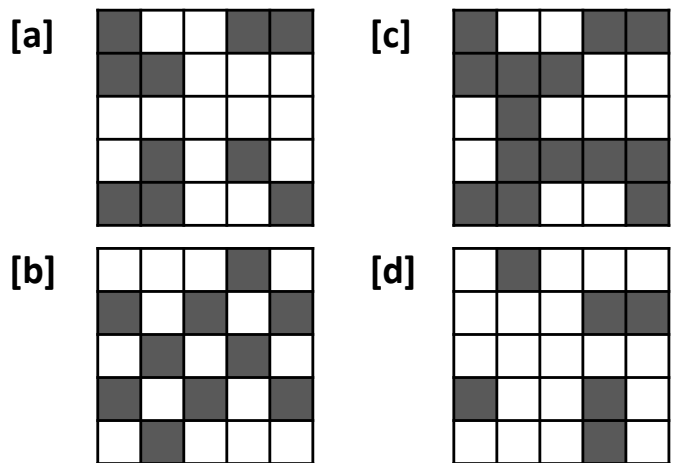

Q3
For each of the following patterns, state the order of rotational symmetry.

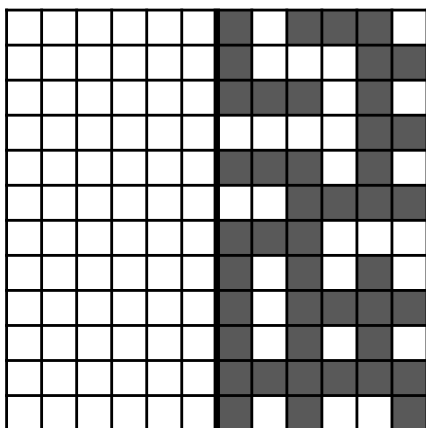

Q4
Shade one more square on each of the following to make patterns with rotational symmetry order two.

Q5
Shade two more squares on each of the following to make patterns with rotational symmetry order four.

Q6
Complete the pattern below so that it has rotational symmetry order two.

Q7
Complete the pattern below so that it has rotational symmetry order four.
