

Forest Puberty assessment

For this assessment you need to create a **Pamphlet** around **puberty!!** This needs to be suitable for a student of your age!!

First you need to select if you are going to do it about **boys or girls** changes.

Once you have chosen this, you need to ensure your pamphlet has the following things.

- 1) Define what puberty is?
- 2) Explain **3** changes that happen during puberty
- 3) Ensure each change has a picture and is well explained in your own words
- 4) Explain what you can do to help when this change is happening
- 5) Make your pamphlet eye catching

This is due **Week 7 - Thursday 31st August**

It needs to be printed out and handed to me.
