WALT Calculate salaries and wages as per the given rate and term Success Criteria I know and understand

- Different methods of payment
- Different rates
- What is fortnightly, weekly and monthly

Methods of payment

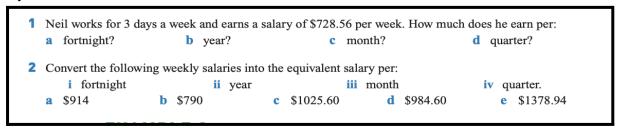

Method of payment	Description	Examples of occupations	Advantages/ disadvantages
Salary	A fixed amount per year, usually paid weekly or fortnightly		
Wages	An hourly rate for an agreed number of hours per week, usually paid weekly or fortnightly		
Commission	A percentage of the value of goods or services sold. Sometimes a low wage, called a retainer , is paid in addition to this		
Piecework	A fixed amount for each item produced or completed		
Fee	A fixed amount for a service provided

Use this example

a	ek. How much does she earn per: fortnight? b year?	c month?	d quarter?
	Solve	Think	Apply
a	Fortnightly = $$670.85 \times 2$ = $$1341.70$	There are 2 weeks in a fortnight. Multiply the weekly salary by 2.	There are 52 weeks in a year, and 12 months is not exactly
b	$Yearly = $670.85 \times 52 \\ = $34 884.20$	There are 52 weeks in a year. Multiply the weekly salary by 52.	4 weeks as 4 weeks is 28 days. Monthly pay is averaged over 12 months. There are 3 months in a quarter, so the quarterly salary could also be found by multiplying the monthly salary by 3.
c	Monthly = $\frac{\$34 \ 884.20}{12}$ = $\$2907.02$ to the nearest cent	There are 12 months in a year. Divide the yearly salary by 12. One month is <i>not</i> 4 weeks.	
d	Quarterly = $$670.85 \times 13$ = $$8721.05$	One quarter of 52 is 13. Multiply the weekly salary by 13.	

Try now

Ho	rry works full-time and earns a salar w much does he earn per: week? b fortnigh		p.a. is short for per annum, which means per year. d quarter?
	Solve	Think	Apply
a	Weekly = $\frac{\$68 600}{52}$ $= \$1319.23$ to the nearest cent	There are 52 weeks in a year. Divide the yearly salary by 52.	Yearly amounts allow conversions to be straightforward. If unsure about converting, calculate the yearly
b	Fortnightly = $\frac{$68\ 600}{26}$ = \$2638.46 to the nearest cent	There are 26 fortnights in a year Divide the yearly salary by 26.	amount first.
c	Monthly = $\frac{\$68 600}{12}$ $= \$5716.67$ to the nearest cent	There are 12 months in a year. Divide the yearly salary by 12.	
d	Quarterly = $\frac{$68\ 600}{4}$ = \$17\ 150	There are 4 quarters in a year. Divide the yearly salary by 4.	

Try now

- 3 Tara works full-time and earns a salary of \$64 800 p.a. How much does she earn per:
 - a week?
- **b** fortnight?
- c month?
- d quarter?
- 4 Convert the following yearly salaries to the equivalent salary per:
 - i week
- ii fortnight
- iii month
- iv quarter.

e \$82 900

- **a** \$52 400
- **b** \$36 600
- **c** \$95 370
- **d** \$76 280

C

- **5** Convert the annual salaries shown in the advertisements below to the equivalent:
 - i weekly salary
- ii fortnightly salary
- iii monthly salary.

a

Fashion

Girl's Surfwear Designer \$80K Exciting position for the

right person. Ph 9444 222

Foreman \$110K

Experienced foreman required for city project. Ph 9333 000

Cleaner/Housekeeper

\$40K Rare opportunity to work in fine home. Ph 9666 000

\$ LOK is a short way

Bruno is employed full-time and earns a salary of \$4600 per month. What is his equivalent weekly salary?

Solve	Think	Apply
Yearly salary = $$4600 \times 12$	Find the yearly salary first	Do not divide monthly by 4.
= \$55 200	by multiplying \$4600 by	Most months are 4 weeks
Weekly salary = $\frac{$55\ 200}{52}$	12. Then find the weekly	plus 2 or 3 extra days, so
· -	salary by dividing by 52.	always convert to yearly.
= \$1061.54 to the nearest cent		

Try now

- 6 Samantha is employed full-time and earns \$6900 per month. What is her equivalent weekly salary?
- 7 Convert the following monthly salaries to the equivalent weekly salaries.
 - **a** \$4200
- **b** \$2890
- c \$5635
- **d** \$7000
- e \$3599
- **8** Scott earns \$68 840 p.a., Lisa earns \$1350 per week, Paula earns \$5700 per month and Tranh earns \$17 050 per quarter. Who earns the most?

Ella works a 35-hour week as a waitress and is paid \$23.86 per hour. What is her weekly wage?

Solve	Think	Apply
Weekly wage = \$23.86 × 35 = \$835.10	Find the pay per week by multiplying the hourly rate of \$23.86 by 35 hours.	Many positions are paid by the hour.

Try now

- **9** Dean works a 35-hour week and is paid \$21.70 per hour. What are his weekly wages?
- 10 Calculate the weekly wages for a person who works a 35-hour week and is paid:
 - **a** \$18.90/h
- **b** \$22.30/h
- c \$26.48/h
- **d** \$53.67/h
- e \$84.50/h

Yoshi earns \$992.50 for working a 25-hour week as a security guard. What is his hourly rate of pay?

Less than 30 hours a week is part-time.

Solve	Think	Apply
Hourly rate = $\frac{$992.50}{25}$ = \$39.70	Find the hourly rate by dividing the weekly wage of \$992.50 by 25 hours.	The hourly rate is useful to compare pay rates for different jobs.

- 11 Lauren earns \$715 for working a 25-hour week. What is her hourly rate of pay?
- 12 Calculate the hourly rate of pay for Phil who works a 25-hour week and is paid the following weekly wages:
 - **a** \$710
- **b** \$877.50
- **c** \$605
- **d** \$485
- **e** \$447.50

1	phie works a 38-hour week and is paid \$ week? b fortnight?	28.75 per hour. How much does she ea ear?	rn in a: d average month?
	Solve	Think	Apply
a	Weekly wages = \$28.75 × 38 = \$1092.50	Find the weekly wage by multiplying the hourly rate of \$28.75 by 38 hours.	Always convert to a weekly or annual wage to find the amount over
b	Fortnightly wages = \$1092.50 × 2 = \$2185	Find the fortnightly wage by multiplying the weekly wage by 2.	other time periods.
c	Yearly wages = \$1092.50 × 52 = \$56 810	Find the yearly wage by multiplying the weekly wage by 52.	
d	Monthly wages = $\frac{\$56\ 810}{12}$ $= \$4734.17$	There are 12 months in a year, so divide the yearly wage by 12.	Remember: 1 month is not equal to 4 weeks.
	to the nearest cent		

13 Trevor earns \$17.20 per hour and works a 36-hour week. How much does he earn in a:

a week?b fortnight?c year?d average month?

14 If a person is paid the following hourly rates for a 38-hour week, how much do they earn in a:

i week?
iii year?
iv month?

a \$43/h
b \$27.60/h
c \$52.90/h
d \$18.45/h
e \$75.30/h
f \$23.55/h
