

Chapter 12 – Game - Measure what?

The width of a doorway	The temperature today	The time of the next bus	The length of your foot	The distance to Timaru
The weight of some 10 c coins	How long it is until lunch time	How much flour is needed for a cake	The amount of water in a kitchen sink	The length of fabric to cut off trousers that are too long
The distance around the block	Whether an angle is less than 90°	How long you have spent doing your homework	The weight of your school pack	The temperature of a baby's milk
The thickness of a cracker biscuit	The time it takes to walk to school	The weight of a pet mouse	How much closer you live to school than your friend	The amount of dry food in a cat's bowl
The amount of cola in a glass	The temperature of the sea	The weight of a bag of carrots	The angle that the leaning tower of Pisa is to the ground	The amount of milk that a carton can hold
