

# Clever Clues

You need  a classmate

## Activity

1. Hannah, Joe, and Rion are cousins. They all belong to different families.

How old are Hannah and Joe?

- 2.

How much do Joe and Hannah weigh?

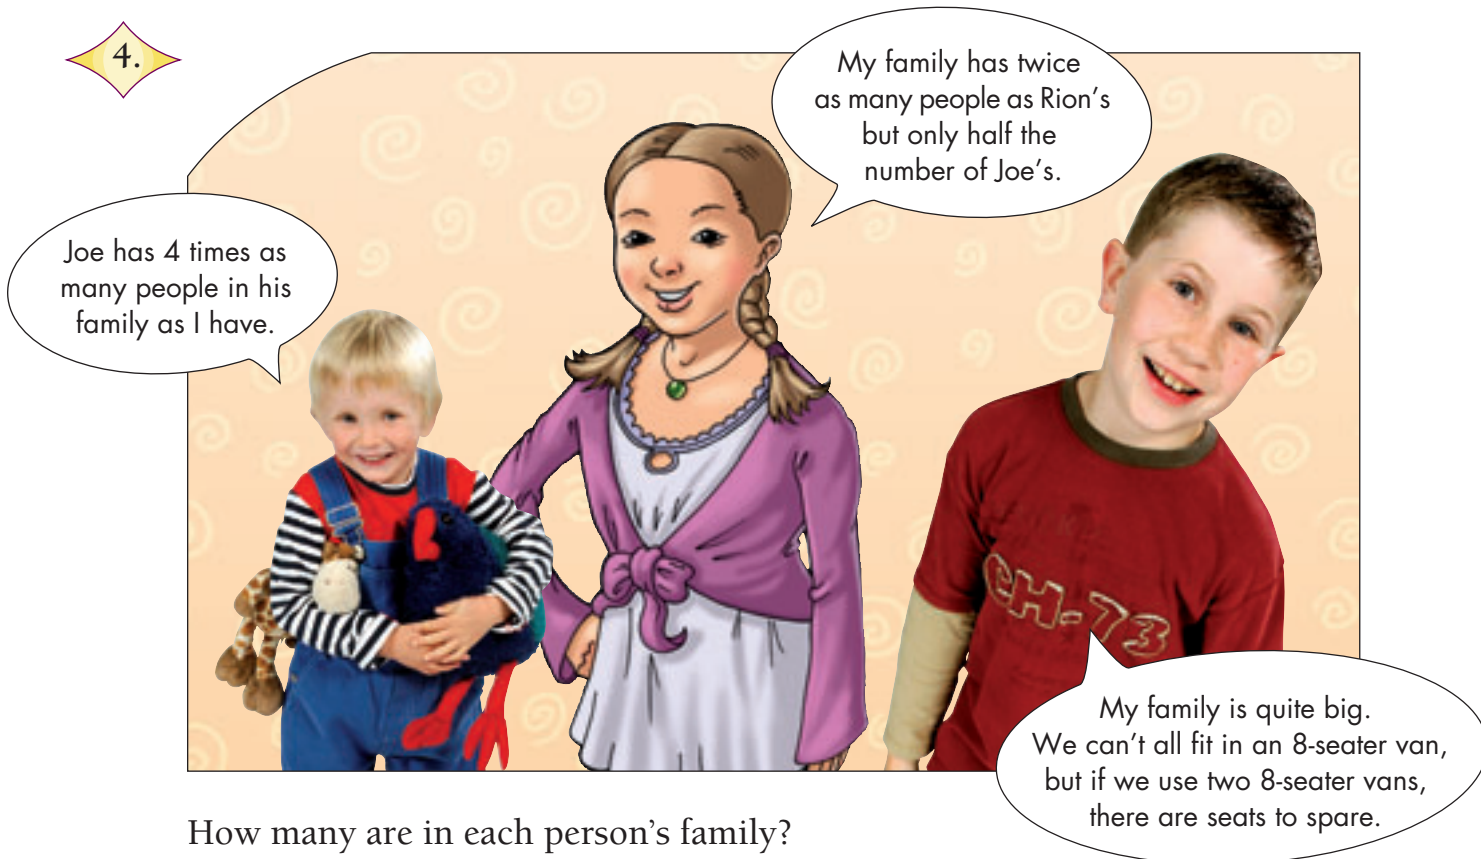

3. a. Rion gets 50 cents pocket money each week. Joe gets \$2.

Who is right?

- b. Hannah gets \$8 a week more than Joe. How many times as much as Joe gets is this?
- c. i. How much more does Hannah get than Rion?
- ii. Use a "more than" statement and a "times as much as" statement to explain the answer. (See the speech bubbles in question 3a.)

4.

How many are in each person's family?

5. Make up some "times as much" or "times as many" problems for a classmate to solve.
